Educated over 2,400 high school students about healthcare careers.

Collaborated with community organizations, healthcare entities, and higher education institutions introducing over 500 nursing students to public and rural health opportunities

“Before camp I wasn’t convinced that I wanted a career in healthcare. Now I know that’s definitely what I want.”
-Health Careers Camper

“I really enjoyed it [Rural Health Tour] and am seriously considering working in a rural hospital after graduation.”
-Rural Health Tour Participant

Workforce Development
- Interprofessional Activities supporting patient centered care
- AHEConnect mentoring program bridging the gap between high school student, college student, and healthcare professional
- Health careers exploration using AHEC curriculum expanding students’ career interest

Health Equity
- Cultural competence resources for healthcare professionals
- Health literacy education in collaboration with community partners
- Community health projects led by third year medical school students addressing health disparities

Rural Development
- “Grow your own” programs providing students hands on experiences in local healthcare facilities including Hands on Health Career Exploration Days and two multi-day Health Careers Camps
- Rural & Public Health tours with college students exploring the opportunities and challenges of choosing rural
- Continuing innovation and outreach to meet the needs of the current and future workforce through events like the Nurse Educator Summit and resources like Informed Caring

AHEC provides innovative pipeline programming to increase rural healthcare providers. Pervasive shortages in rural healthcare access further demonstrate the need for future AHEC funding and partnerships.
